title	Bands of the Reach
author	The Emberwatch

Bands of the Reach

A reference sheet for the crews who walk the line, converted from markdown to PDF by JADELY itself.

The bands

Band	Colour	Meaning
Low band	pale amber	the line is short and well kept
Middle band	ember	the line crosses water
High band	smoke	the line is abandoned but walkable
Dead band	none	do not walk it

Standing orders

1. A band is a promise about the ground, not about the weather.
2. Two keepers may disagree about a band. Both may be right.
3. If the band is missing, treat the ground as dead.
